

The Soldier

This goes out to the soldier
To the one who fought
To the one who risked their life

For our country
And our home
To the one who knew what was right
And kept us safe

To the one who left their family
To fight for us
For them
And for our country

To the one who knew the risks
But went to help anyway
Knowing they may not come home
They did it for us
So for that, we are thankful

So this goes out to the soldier
The one who saved the world
