

Time to Protect

By Grace Jones

In 2020 our world learned to fight a new kind of war.
With an invisible enemy, a virus that came to our
shore.

We keep safe by distancing, handwashing and masking.
Staying the 'Blazes Home' like our premiere is asking.

Nothing compares to World Wars 1 and 2. But
through the sacrifices we've learned what to do.

Our Canadian forces fought with bravery and heart.
They showed that Canadians all have a part.

Veterans stood up for freedom and paid a high
cost.

Poppies blew across fields where young and old
lives were lost.

We are sick of Covid and not being able to connect!
But now it's our turn to serve and protect.

Our soldiers, responders, our nans and pops. We
listen to doctors and nurses to make Covid stop.

2020 is our time to return the debt.
Protecting our seniors. Lest we forget!
