

They are Fighting for our Country

The guns fire
The soldiers duck for cover
They made the sacrifice
Soldiers of all ages
They are fighting for our country

The cannons fire
The soldiers scatter
The weather is treacherous
The wind is blowing
They are fighting for our country

Deep in the trenches
Their footwear is soggy
Mortar shells blow everywhere
There is nowhere to go
They are fighting for our country

In the morning the sun
Comes up once again
It shines on the poppies
That grow in between the crosses
They fought for our country

On November.11th
It is important
To attend the ceremony
To remember those who sacrificed
They fought for our country
